PROFESSIONAL SUMMARY

Full Stack Software Engineer with 5+ years of experience building scalable web and mobile applications for retail, logistics and SaaS products. Primarily works with React, React Native, TypeScript, Node.js, Next.js and Go, connecting frontend, backend and architectural decisions to business outcomes. Experienced in micro frontends, REST APIs, Design Systems, CI/CD, monitoring, accessibility, performance and cross-functional collaboration with Product, UX, Backend and Operations teams. Growing focus on Artificial Intelligence applied to software development, including LLM integration, automation, Model Context Protocol (MCP) and developer productivity.

TECHNICAL SKILLS

Frontend and Mobile: React, React Native, Next.js, Expo, TypeScript, JavaScript, Tailwind CSS, Material UI, Styled Components, Stitches, Electron, Zustand, React Query, React Hook Form, Zod, Framer Motion, mobile-first development and accessibility (WCAG).

Backend and APIs: Node.js, Fastify, Express.js, REST APIs, GraphQL, Go, PostgreSQL, Prisma, Drizzle ORM, JWT and third-party API integrations.

Architecture and Engineering: Micro frontends, Design Systems, Storybook, Monorepo, Clean Code, SOLID, unit and integration testing, feature flags, CI/CD, Docker, Git, GitFlow, GitHub Actions, Vercel, Cloudflare, Linux, Postman, monitoring, observability and troubleshooting.

AI and Productivity: AI-assisted development, OpenAI Codex, Model Context Protocol (MCP), Ollama, Continue.dev, Claude workflows, LLM automation, AI agents, technical prompting and accelerated AI prototyping.

PROFESSIONAL EXPERIENCE

Lemon Energia - Software Engineer

Remote | July 2026 - Present

I bridge business and technology, investigating operational problems and turning complex energy-journey rules into full-stack solutions. I lead continuous discovery, document decisions and requirements, and use AI with critical review to accelerate reliable, scalable deliveries with measurable impact.

- Business-team discovery to clarify needs and requirements
- Building AI-first full-stack solutions
- Critical review of AI output before product use
- Pragmatic evaluation of product and technical trade-offs

Luizalabs - Mid-level Developer

Remote | October 2023 - June 2026

I worked at Luizalabs, Magalu's technology unit, developing web and mobile applications for physical store operations, REST APIs, and backend solutions for a high-scale national retail environment.

- Developed solutions used in inventory and logistics operations across 1,000+ stores
- Contributed to the daily workflow of 1,000+ stock clerks in corporate applications
- Maintained REST APIs, integrations, and micro frontends with React, React Native, Node.js, and TypeScript
- Collaborated with Product, UX, Backend, and Operations to connect technical decisions to business impact

Smarten - Front-end Tech Lead

Remote | May 2022 - September 2023

I worked as a Front-end Tech Lead in SaaS products, leading developers, defining quality standards, evolving interface architecture, and connecting technical decisions to product delivery.

- Technically led a team of developers
- Created and maintained a Design System adopted across multiple products
- Implemented CI/CD, monitoring, and quality standards
- Mentored developers and improved performance, maintainability, and scalability

SBSistemas - Front-end Developer

On-site | May 2021 - May 2022

I consolidated my professional foundation in front-end development, building applications with a focus on usability, maintainability, typing, reusable components, and engineering best practices.

- Developed front-end applications with React, Electron, TypeScript, and JavaScript
- Implemented reusable components and interface standards
- Applied maintainability, testing, and code quality practices
- Built a solid technical foundation for web products

EDUCATION

Universidade de Passo Fundo - Associate Degree in Systems Analysis and Development - 2020 to 2022

CERTIFICATIONS

Android, React Native, Node.js, ReactJS

LANGUAGES

Portuguese: Native | English: Intermediate
